ENG. MOHAMAD MOURIZADEH
CEO OF MAKVIX

ABOUT US

MAKVIX is a premium digital studio crafting high end websites, mobile apps, and AI powered experiences for brands that demand elegance, speed, and global impact. From minimalist UI to multilingual automation, every pixel and line of code reflects our obsession with quality.

PROBLEM

MARKET GAP

Most businesses want premium websites, apps, and AI but don't know where to start.

They lack the design clarity, technical expertise, and strategic vision to build something unforgettable.

COSTS

cheap solutions lead to broken flows, bad UX, and wasted time.

Every pixel matters especially when your audience expects luxury.

CUSTOMERS

Clients are tired of generic templates and slow development.

They want fast, elegant, multilingual platforms that reflect their brand's true value

USABILITY

Most tools are cluttered, confusing, or not built for bilingual markets.

Makvix delivers intuitive, minimal interfaces that feel effortless across languages

FINANCIALS

Poor digital execution costs brands thousands in lost trust and conversions.

Makvix helps recover that value through precision design and smart automation.

DESIGN

Design without soul is forgettable.

Makvix blends poetic branding, subtle animation, and pixel-perfect layouts to create emotional impact.

SOLUTION

CLOSE THE GAP

We turn vague ideas into premium digital products.

From concept to launch, Makvix bridges the gap between ambition and execution with clarity, speed, and elegance.

TARGET AUDIENCE

Brands that refuse to look average.

We serve startups, enterprises, and government clients who demand bilingual, scalable, and emotionally resonant digital experiences.

COST SAVINGS

No wasted time, no bloated tech.

Makvix builds exactly what you need nothing more, nothing less. Every feature is purposeful, every pixel intentional.

EASY TO USE

Interfaces that feel invisible.

Our products are designed to be intuitive, multilingual, and minimal so users focus on what matters, not how to use it.

MAKVIX INTEGRATION

SMART WEBSITE ARCHITECTURE

Makvix's platform is built with precision custom login/logout flows, branded error handling, and seamless redirects , Every pixel reflects luxury minimalism

AI-POWERED SERVICES

From intelligent chatbots to automated content generation, Makvix integrates cutting-edge AI to elevate user experience and streamline client workflows

DESIGNED BY EXPERTS

Makvix blends full-stack development with poetic UI/UX
Every feature from PNG asset curation packaging is crafted for global impact

BUSINESS MODEL

BRAND STRATEGY

We craft poetic, minimal, and globally resonant brand identities. Every name, tagline, and visual element is designed to evoke emotion and clarity across cultures

LOGO & VISUAL SYSTEMS

Makvix delivers pixel-perfect logos, scalable icon sets, and adaptive design systems. From outline to color, every asset reflects luxury minimalism and timeless elegance

DIGITAL MARKETING

We build multilingual campaigns powered by SEO, AI driven content, and strategic storytelling. Whether in English or Arabic, Makvix ensures your message reaches and resonates
